Information

Purpose. This study will help us assess the responses of artificial intelligence (AI) assistants to different user queries.

Nature of the study. You will see a brief video tutorial (SOUND REQUIRED) and evaluate 12 responses from AI assistants. Then, you will be asked a few general and demographic questions. The study should take around 20 to 25 minutes, and there will be checks to ensure you are paying attention.

Risks and benefits. There are no known risks to you for participating. Outside of payment, there are no tangible benefits, but it may be interesting, and you will be contributing to the future of human-AI interaction.

By agreeing to participate, you consent to the following:

1. I agree to participate in this study.

2. I confirm that I am 18 years of age or older.
3. I confirm that I live in the United States of America.
